A Christmas Prayer

Freely, with much expression (\( \dot{q} = 63 \))

Deep in the night, a star was burning brightly.

Angels sang, and shepherds came to see this holy night.
A Christmas Prayer

Child, Em-man-u-el.
I pray this prayer, a Christmas prayer, that the hearts of lonely men would see the light of Beth-le-hem. All would find this hope that shines; that ev’ry
na-tion on the earth would know the won-der of His birth and find
peace, and find peace. This is my Christ-mas prayer.

Dark is the world, and
cold as winter morning. God has come through this
